

**7th INTERNATIONAL SEMINAR ON MODERN POLYMERIC MATERIALS
FOR ENVIRONMENTAL APPLICATIONS**

including

Special Session

‘Recent Advances in Polymer Nanocomposites and Hybrid Materials’

BEST POSTER PRIZES - RESULTS

Poster Session Committee, based on the scientific quality, originality of research and layout/way of presentation of the posters presented at the MPM’2019 conference, has awarded:

1st Prize: Emilia Hola – “Terphenyl derivatives as highly versatile co-initiators/sensitizers for photopolymerization upon exposure to visible light”,

2nd Prize: Izabela Łukaszewska et al. – “Calorimetric and Dynamic Glass Transition in Biocompatible Polyurethane Elastomers Based on Amphiphilic Soft Segments”,

3rd Prize: Anna Marzec et al. – “Characterization and properties of new hybrid pigments based on aluminum-magnesium hydroxycarbonate and azo dye”.

Congratulations to all awarded Authors!
